Floods, landslips kill 10 people in Meghalaya

Flash floods and landslips caused by incessant rain have claimed the lives of at least 10 people across five districts in Meghalaya's Garo Hills region. Officials said seven people had died in the South Garo Hills and three in the West Garo Hills, the two worst-affected districts. Chief Minister Conrad K. Sangma reviewed the situation on Saturday morning and instructed the district authorities to seek any assistance needed from the government, and ensure relief in the affected districts. "Three civilians have lost their lives in Dalu. The Chief Minister has directed the administration to release the ex-gratia to the next of kin [of the deceased]," the statement said.
