Flooding in Moola Vaigai river, after nearly a decade

Heavy rains in Meghamalai, Vellaimalai

A. SHRIKUMAR
THENI

Following copious downpours throughout Friday night on Meghamalai and Vellaimalai hills, heavy flooding was witnessed in the Moola Vaigai river on Saturday.

Farmers from Andipatti and surrounding areas noted that the otherwise parched riv-

er witnessed water flow for the fourth time on Saturday, in the past two months. The flooding has been seen after nearly a decade.

People living in areas such as Arasaradi, Varusanadu, Kadamalainkundu, Mayiladumparai, Ulkaadu and Gandamanur and various other villages, remained indoors.

Public Works Department officials have instructed people living along the banks to not venture into the river and police personnel have been posted in the area to restrict people.

Since Saturday morning, groups of people have been gathering on the Kadamalainkundu bridge to witness the water flow.
