STAFF REPORTER

GUWAHATI, July 23:

With the fresh reports of two more cases of death, due to flood, received from the districts of Morigaon and Golaghat during the past 24 hours, the total flood-related death toll in the State rose to 69 today this year.

Floodwaters are again inundating more areas, upsetting the overall situation in

the State, with the resumption of heavy rainfall activities since yesterday, over the districts of Kokrajhar, Bongaigaon, Chirang, Baksa, Lakhimpur and Dhemaji districts, said the Assam State Disaster Management Authority (ASDMA) here this evening.

Flood death toll ...

(Contd from page 1)

It said that as of today, a total population of 28 lakhs in 2,523 villages under 68 revenue circles of the 19 districts of Dhemaji, Biswanath, Darrang, Baksa, Barpeta, Nalbari, Chirang, Bongaigaon, Kokrajhar, Dhubri, South Salmara, Goalpara, Kamrup, Kamrup (M), Morigaon, Nagaon, Golaghat, Jorhat and Cachar, are still reeling under floodwaters.

Presently, 659 relief camps are operational in the districts of Darrang, Barpeta, Chirang, Bongaigaon, Kokrajhar, Dhubri, Goalpara, Kamrup, Morigaon, Nagaon, Golaghat and Jorhat and together they have a total 1, 03,934 flood-hit people as their inmates. Moreover, 123 relief distribution centres in the districts of Darrang, Barpeta, Bongaigaon, Kokrajhar, Dhubri, South Salmara, Morigaon and Golaghat are also operational as of today.

The Brahmaputra is flowing above its danger level at Neamatighat (Jorhat) and Dhubri, while the Jia Bharali (at N T Road Crossing, Sonitpur), the Puthimari (at N H Road Crossing, Kamrup), the Beki (at Road Bridge, Barpeta), the Gaurang (at Kokrajhar) and the Kushiya (at Karimganj) are also flowing above their danger levels, said the ASDMA.

Heavy showers resume, island city gets more rain than suburbs

S L Shanth Kumar

Richa.Pinto@timesgroup.com

Mumbai: The monsoon regained vigour over the city, bringing heavy rain in the city and surrounding areas since Tuesday night. The rain was particularly heavy over the island city, with the Colaba rain gauge recording over 170mm, its highest yet in a 24-hour period this season. There is significant cloud buildup above the city, and the forecast for Thursday is heavy rain at isolated places.

► Falling boulders batter Mum-Pune train schedule, P 2

Almost all of the rain in the island city was recorded in just six hours, between 11.30pm and 5.30am till Wednesday. The weather bureau said this was the second instance this season when intense spells were witnessed overnight; the first was on July 1-2, where 375mm of rainfall was recorded by the Santa-

cruz observatory.

With copious rain, Mumbai's air quality index improved to 15 on Wednesday — the best this year and the second best since monitoring began in June 2015. However, it didn't rain much in the catchments of the seven lakes that supply Mumbai.

Rainfall recorded in the 24

hours starting from 8.30am, Tuesday by the IMD's Colaba observatory was 173.6mm and 84.2mm at Santacruz. The suburbs and Thane and Navi Mumbai received intense spells of rain through Wednesday, but the breaks helped water to recede.
