FOREWORD

During the last decade and half, Central Water Commission has brought out several publications on different subjects related to the field of Water Resources Development. These Publications cover a wide range of latest technical aspects pertaining to overall resource; planning, design and construction, operation and maintenance of multi-purpose river valley projects. This compilation is being presented to fulfil the need for ready reference of all titles of various publications printed during the period 1996-2010.

It is hoped that this revised compilation will be of immense help to all users concerned in the field of Water Resources Development.
